St Mary Lodge

Our room – upper right hand corner, 317.

When we walked into the dining room we felt so welcome. Everyone was waving at us. After we sat down and the flies swarmed us, we were waving too. The carpet was stained, the food was bad and they shut off our room lock with a day left to go. You already know about the Internet. Expensive dump.

Here's our new place, Yellowstone Basin Inn.

We have the suite with the center balcony. Big bedroom, big sitting area with full kitchen. Spotless. Our host and hostess are nice. It is raining.
